

Step 1.

Go to your Facebook page, hover your mouse pointer over your profile picture and right click. This should be the result (or some variation depending on the operating system you are using)

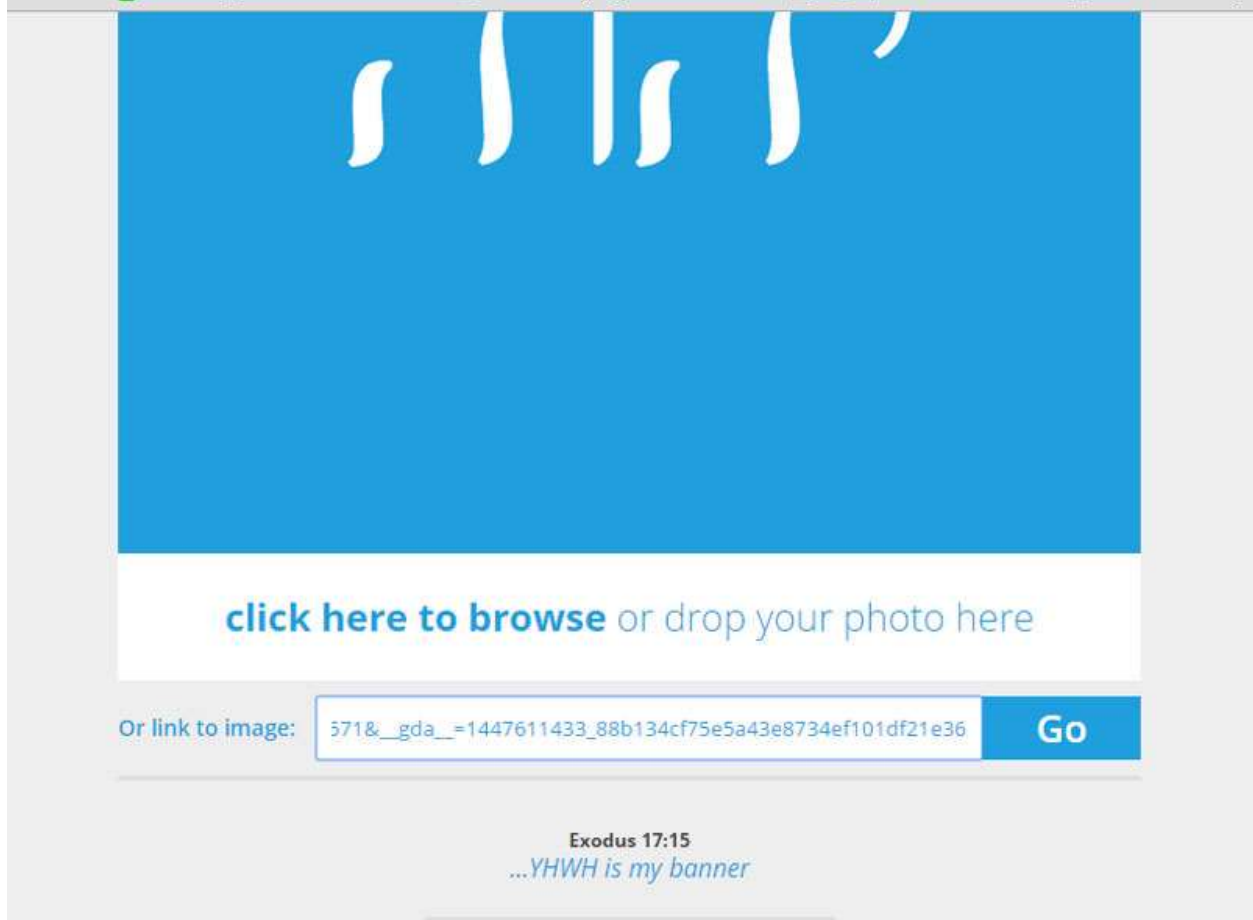

Step 2.

Go to <http://banneryhwh.com> and scroll down until you see the input box. Click in the box to put the cursor there. Then right click again and use the “Paste” command. It should look similar to the below

Step 3.

Shown below is the result of Step 2, now hit the “Go” button

Step 4.

You should now see your chosen image with the Hebrew letters covering your profile picture (shown below). Hover your mouse over the Download button to save the image to your system.

Step 5.

Congratulations! You should now have the image to save to use on Facebook!
