

IMPORTANT NOTE: The Following steps are shown on an iPhone 5s, your exact screen and potentially instructions may vary depending upon your mobile device.

Step 1.

Open your Facebook profile page in your phone's browser. **NOT YOUR FACEBOOK APP**, in your web browser. (Chrome, Safari, Firefox, IE, etc). Tap your profile picture to open it.

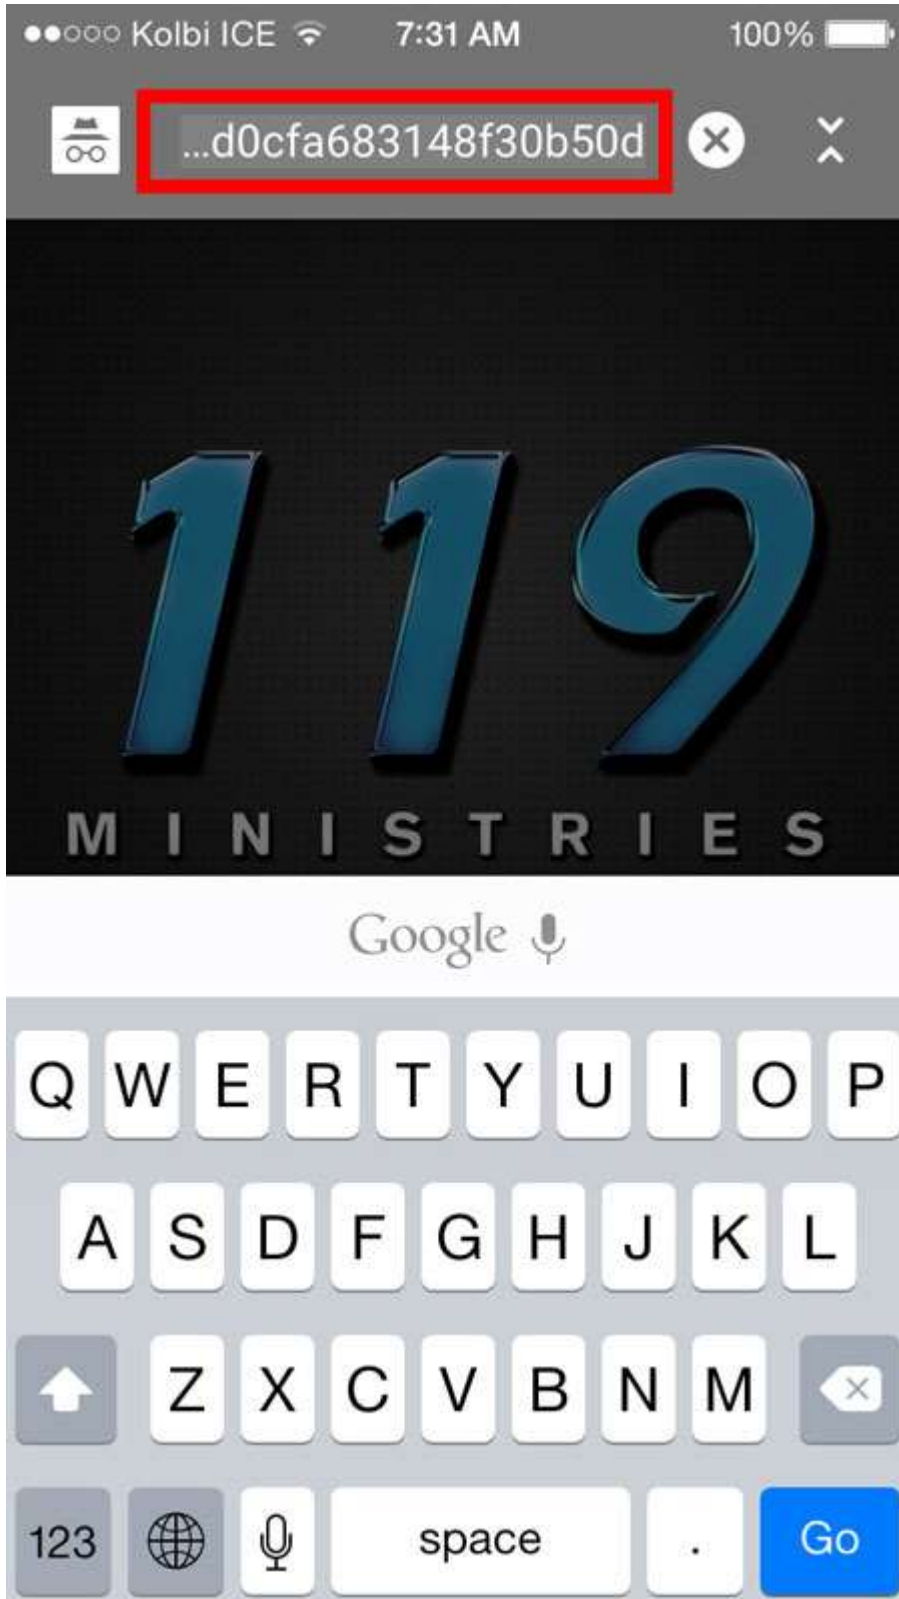

Step 2.

On the next screen that shows your profile picture, tap the small text below it that says "View Full Size".

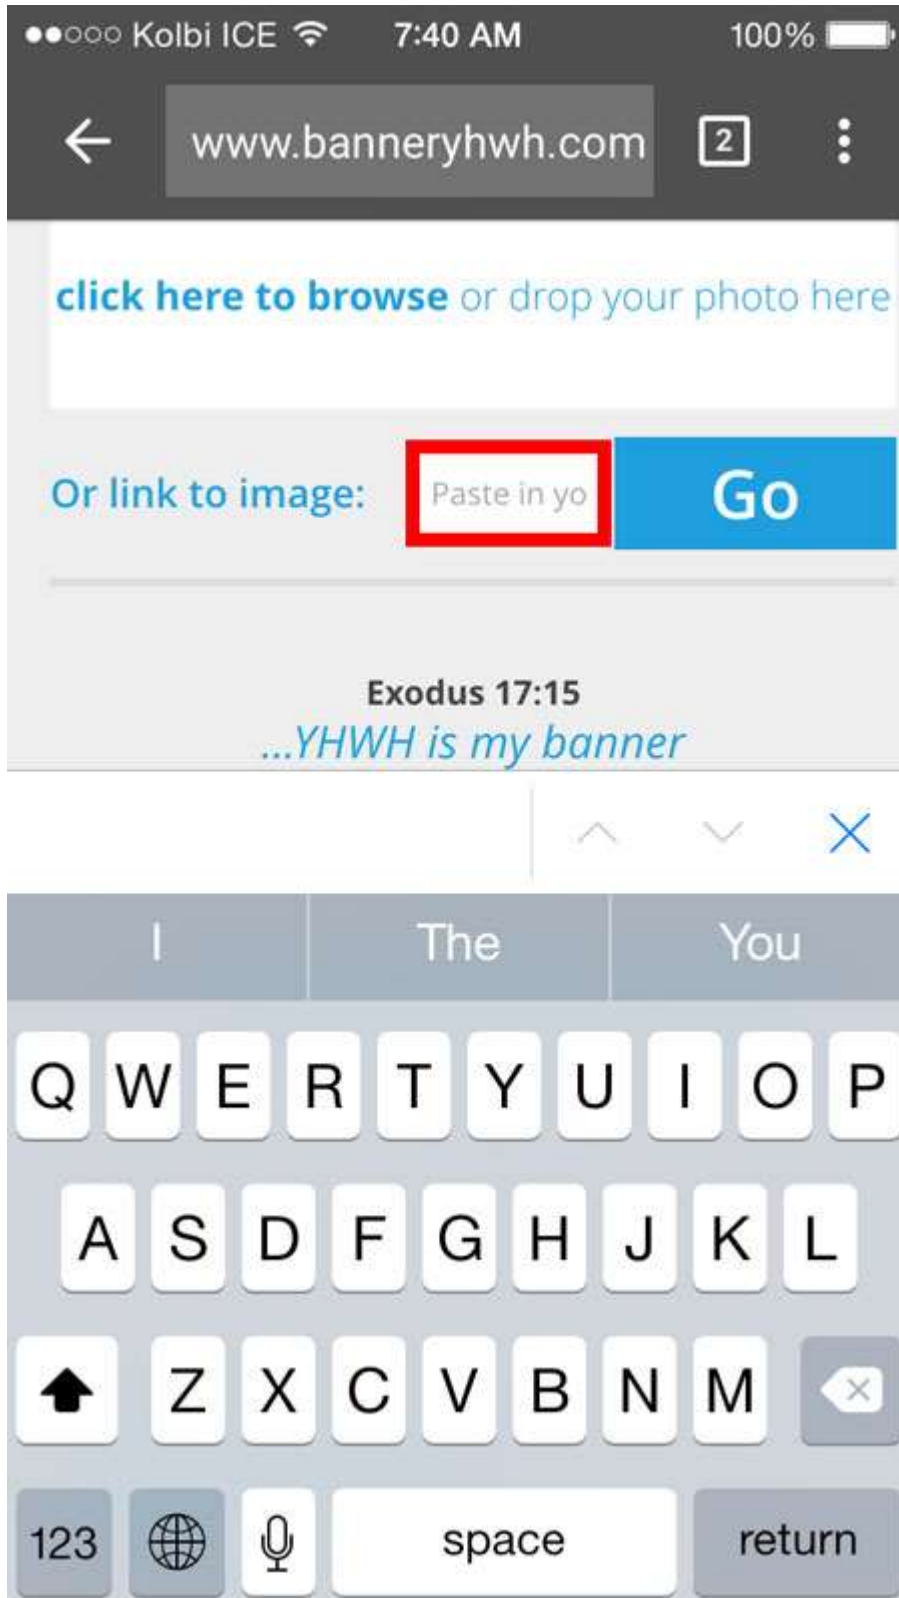

Step 3.

Copy the web address of the page that loads.

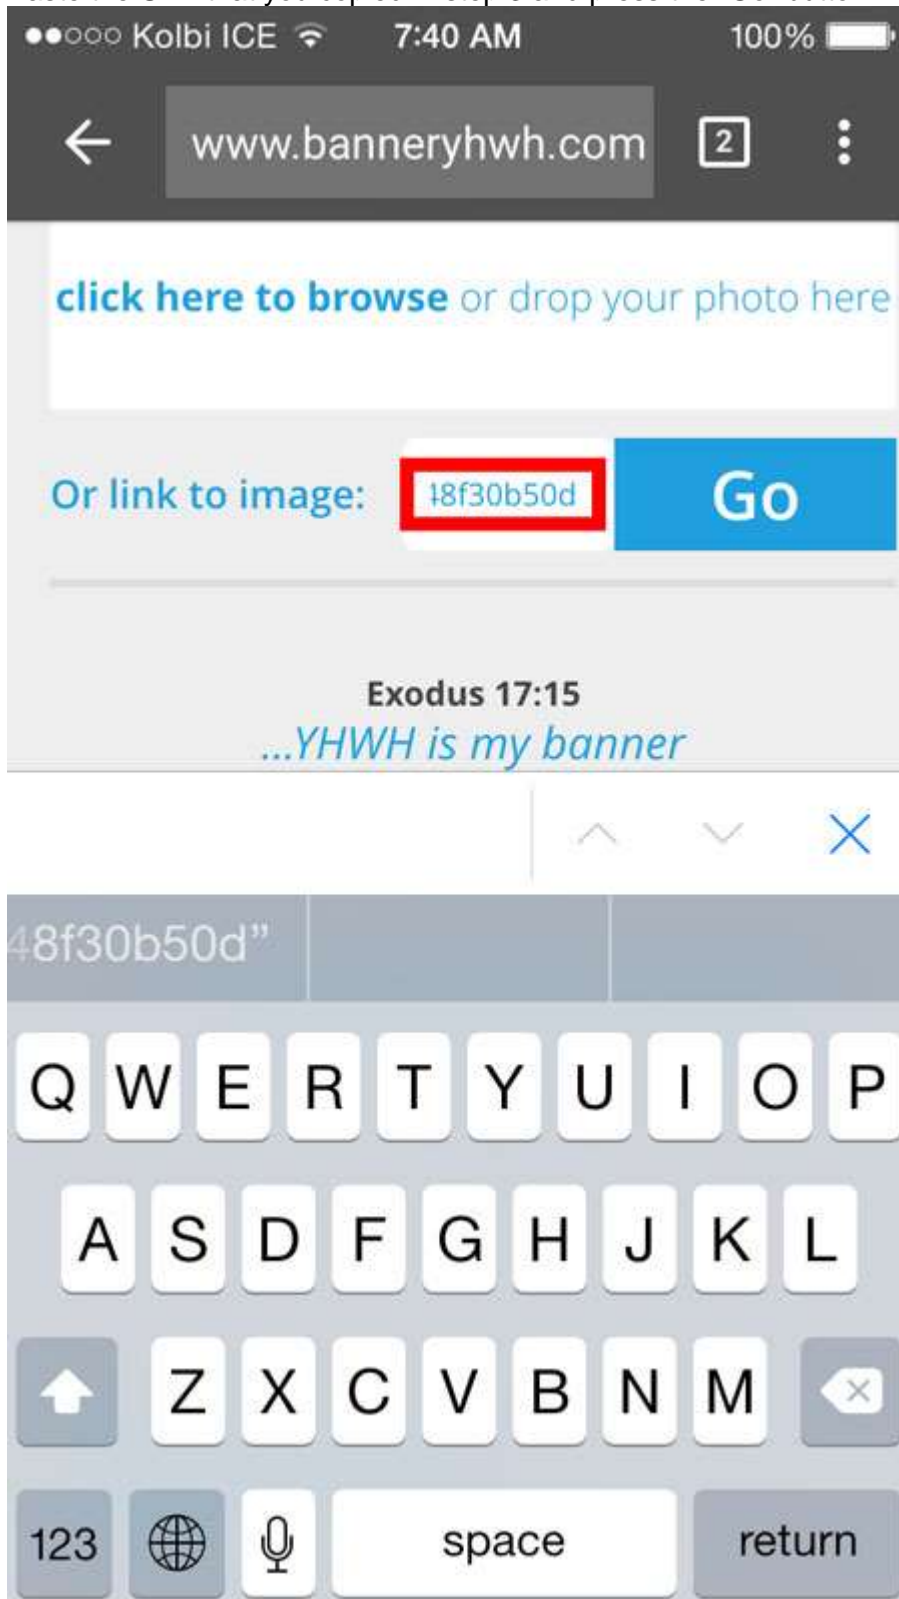

Step 4.

Go to <http://banneryhwh.com> and press in the empty box underneath the image area to put your cursor in the box

Step 5.

Paste the URL that you copied in step 3 and press the “Go” button

Step 6.

Press and hold your finger on the image that appears on the screen until you receive the option to save the image to your device. Once you do that, you're done!

Step 7.

Enjoy! Congratulations! You should now have the image to save to use on Facebook!
